## Financial Updates with Potential Impacts on the PA Charter School Community

Governor Wolf is attempting new angles to cut funding for charter schools: Determined to cut funding for public charter schools before he leaves office in 15 months, the Governor has in recent weeks threatened to impose new regulations on public charter schools if the PA House and Senate will not agree to legislation that cuts funding for charter schools. This administration has rejected compromise offers and it has become clear that the so-called accountability and transparency measures this administration is calling for is in fact a cut to the funding for charter schools which already receive $75 \%$ of the funding compared to transitional public schools.

A media article focused on the Governor's new approach can be found here: PA Charter Schools Grow in Popularity as Wolf Seeks to Clamp Down - DV Journal (delawarevalleyjournal.com)

A copy of the regulations proposed by the Governor can be found at this state link: Proposed Regulations for Charter and Cyber Charter Schools. The Governor's press release on the topic can be found here: Wolf Administration Proposed Charter School Regulations

As a reminder, the funding cuts proposed by the Governor in the past would reduce Special Education funding to public charter and cyber charter schools alike by approximately $30 \%$. We believe that the recent proposals recommended by the Governor are in addition to his proposed cuts to special education. While the Governor and other anti-charter groups emphasize that the move will "save school districts some $\$ 395$ million by reining in charter school costs", the fact is that every dollar "saved" by a school district will be a dollar taken from educating charter school students at the schools their families have elected to attend. If passed, such legislation would likely result in program cuts, layoffs of educators, and - in some cases - possible closures of public charter schools.

We encourage all charter school Boards, school leaders, and especially educators, students and their families to make your voice heard to the Governor and legislative leaders alike. Directed communication efforts through any of the following channels will have a positive impact:
